

AVIATION

Having long been an advanced manufacturing center for aviation - with companies that include Lockheed Martin, Honeywell, GE Aviation and Michelin Aircraft Tires - Greenville, SC remains well-positioned to continue leading the way in this innovative industry.

“We haven’t had any difficulties finding and retaining qualified personnel to support our operations at Greenville.”

UNIQUE PROPERTY

SCTAC (South Carolina Technology & Aviation Center) (GYH)
sc-tac.com

Air & Industrial Park

Formerly Donaldson Center, U.S. Air Force Base, SCTAC is now Upstate South Carolina's premiere Air and Industrial Park. Located seven miles south from Downtown Greenville, SC, along the I-85 corridor, the park encompasses 2,600 acres and features an 8,000 foot primary runway. This substantial environment benefits more than 80 on-site businesses such as 3M, Solvay Cytec Carbon Fibers, Lockheed Martin, Michelin and Stevens Aviation.

- FAA Part 139 Airfield Certification
- Fire Department-ISO Class 4-certified

Site, Parcel A (Aviation District)

- Approx. 140 acres
- Access to 8,000 foot primary runway
- I-1 Zoning
- Sub dividable
- Flat topography
- All utilities on-site

Specialized Project Financing Options

- Build-to-suit financing
- Independent bonding capabilities
- Leveraging with federal programs to diminish project costs
 - New Market Tax Credits
 - EB-5

Greenville Downtown Airport (GMU)
greenvilledowntownairport.com

Greenville Downtown Airport is South Carolina's busiest general aviation airport, providing a corporate gateway into the Upstate region. Services at GMU include:

- Aircraft Management Services
- Air Charter and Air Taxi Services
- Sales, Maintenance, Interiors and Detailing
- Aircraft Rental and Flight Instruction
- Development Ready Sites Available

While the Boeing Company is the largest aerospace firm in the state, there are numerous other recognizable firms located in South Carolina. These include:

**LOCKHEED MARTIN CORP. | GKN | GE AVIATION
CHAMPION AEROSPACE | TIGHTCO
STEVENS AVIATION | TORAY | CYTEC
RANGER AEROSPACE**

COMPANIES

Engineering & Manufacturing

Aeronautica LLC - Engineering, Certification

Avenger Aerospace - Engineering, Certification, and Manufacturing Services

BMI Corporation - Aerodynamics (Computational Fluid Dynamics, Wind Tunnel Testing, Straight Line Testing), Design and Manufacturing

GE Aviation - Jet Engine High Pressure Turbine Blades

Honeywell - Aircraft and Helicopter Engines

KTM Solutions - "On Demand" Engineering Services

Maintenance, Repair & Overhaul

Action Research Corporation (ARC) / ARC Products, Inc. - FAA Repair Station / Assembly

Applied Tech Services, Inc. - FAA Repair Station for Engine Components

Honeywell - Aircraft and Helicopter Engines

Lockheed Martin - Commercial and Military Aircraft Maintenance and Modification

Southern Air Repair - FAA Repair Station / Component repair

Stevens Aviation - (GYH Location) Phase Inspections, Special Inspections, Overhauls, Heavy Maintenance and Warranty, Dallas Airmotive Warranty, Heavy Structural Repairs, Engine Modifications, Winglet Modifications

Paint / Coating

Broadhead Aviation Maintenance, Inc. - Aircraft Painting Service / Repair

Lockheed Martin

Stevens Aviation (GYH Location) - Paint Refurbishment, Complete Strip and Repaint, Flight Control Removal and Balance, Registration Number Changes, Restripe Fuselage, Corrosion Inhibitor, Coating Application, Aircraft Detailing

Hentzen Coatings - Coatings

Carbon Fiber

Solvay Cytec - Carbon Fiber / Aircraft Components

SAATI Americas - Carbon Fiber / Aircraft Components

Other

Adex Machining - Machined Components

FSC Cutting Tool Technology - Specialized cutting tools

Michelin - Aircraft Tires

NextGen Supply Chain Integrators - Quality Management Systems - Certification Assistance and Training in ISO9001 / AS9100 / TS16949 / Lean Six Sigma

Professional Interiors, Inc. - Aircraft Interiors and Upholstery

Ranger Aerospace - Aviation services and aerospace/defense support operations

Woven Electronics - Electronic Cabling

EDUCATION

Greenville Technical College

Associates in Aircraft Maintenance Technology
gvltec.edu/amt/

The new home of Greenville Tech's Aircraft Maintenance Technology Program and the SC National Guard.

Due to the growing impact of the aerospace industry, Greenville Tech is proud to offer education and training that includes a new \$20 million and 93,908 SF facility, as well as a dedicated lab space and larger hangar.

Associate Degree offered in Applied Science

- Aircraft Maintenance Technology

Certificates offered in Applied Science

- Aviation Powerplant Theory / Systems
- Aviation Airframe Structure / Systems
- Aviation Fundamentals
- Avionics

Other Educational Resources

- Embry-Riddle Aeronautical University
- USAerotech
- USAeroFlight
- Carolina Aeronautical Testing and Certification Center
